It is important that our patients and we have the same health objectives concerning chiropractic care. Regardless of what a disease or condition is called, we do not offer to treat it. Our only practice objective is to eliminate a major interference to the expression of the body's internal wisdom. Our only method is specific adjusting to correct vertebral subluxations. We believe that the greatest doctor is the one already inside of each of our patients and we only help to maximize that inherent healing power, without using drugs or surgery. If eligible, I accept chiropractic care on this basis. I hereby attest to the fact that the above information is true and accurate.
